The excitement created in Paris by the refusal of the son of General Cavaignacto receive a school prize from the son of Louis Napolson, has been mentioned. An account of the circumstances which have given rise to this hereditary animosity may not be uninteresting.

Louis Eugene Cavaignae, the father, was born in Paris in 1802, and after being graduated at the Polytechnic school as Leutenaut of Eugineers, entered the army. His milltary career was partlenlarly distinguished in Algeria, where he finally became teneral and leavener of the province of 1918, broke

Mexican Matters—Seward Sumbbed by Juarez. The following interesting dispatch is om Washington to the New York imes. The Indian down in Mexico joils on as many airs as Seward himself:
Some time since Secretary Sewardwrote to Minister Bamerot, at Berlin, to
advise Bismarck to recognize the Mexican Republic and the Hovernment of
Juarez. M. Bismarck received the suggestion readily, and, acting on it, adviscel Baron Geroll, the Prussian Minister to this Government, to effect the
necessary arrangements through Mr.

A two days' trip into Dktibbeha county, the latter part of the week just gone, showed us terrible and wide-spread damage done, and being done, in catton by the boll worm. They have appeared within the last ten days or two weeks, and so rapid is their ravage as to entitle hopes of planters for a full crop down to half, or even less. The crop will depend almost entirely on the lower bells of the stalk; thuse age hard enough to resist the intoals of the little destroyer. Some planters have already commenced picking out ration—of course in small quantities. Half the worms delayed their visit a week or two, the cottom crap would have been splendld in our sister county. The Madison Mercury of the 20th, re-

ports:
Mr. J. W. tfarney, who is planting in tids ylchilty, brought us in a stalk of votton as a sample of the work of the worms that are devasting his crop. He is not now concerned about the eaterpillar—they can do no harm. A worse enemy, the boil worm, has come, and is making a thorough destruction, attacking the fruit in all stages, from the forms that have not yet made their bloom, to the grown boll. If this worm has generally made its appearance in the fields, a more berrible pest than the army worm has made its advent, and the cotton crop of this ylcinity is doomed, be the weather what it may. The rank weed and wet

Another hard week for drovers has passed. The excitementalout the cattle plagme seems to have materially decreased the consumption of beef. There has not been a diseased unimal in our yard the entire season, and, as far as we can learn, there has been none in the vicinity of the etty.

We quote cattle from 2½c to 5c per lb. gross. No shipping cattle in market. It logs are very season.

Stock all sold.

Hogs are very scarre—have sold from \$\frac{4}{2}e\$ to the per 1b, gross; demand good; brices tending upward.

Sheep are dull—\$150 to \$2 for common; good, 3 et o \$2 per lb, gross; lambs, \$2 to \$3 per head.
